The World of Plants

A virtual workshop for early childhood teachers.

Includes 2 CEU hours

Investigate plants from the roots up. How do plants eat? Investigate a variety of seeds, dissect one and find out what makes it grow. How do some plants reproduce without seeds? Come find out as we investigate the world of plants.

Participants will leave with a kit of science materials, ready-to-implement ideas, and a membership to NMAEYC.

Thursday, October 8, 2020, 2pm–4pm

Held virtually. Zoom link will be sent to registrants the day before.

Registration is requested by October 1 so that kits can be shipped ahead of time. Sharing a login and kit of materials is possible. Please contact Explora Reservations with questions - reservations@explora.us
