

Creative Coding: Virtual Workshops

Making and Coding

Suitable for teachers of grades 3-8, all skill levels welcome.

Bring the making mindset to your coding projects and make computer science accessible, creative, and fun! In this workshop, you will learn to use simple, common materials with micro:bit microcontrollers in creative ways. Join virtually with your own personal kit of hands-on materials.

Prior to the workshop, participants can pick up a kit of materials at Explora or have them mailed for use during the online session.

Wed., Sept 30 (3:00 - 5:00 pm)

Mon., Oct 19 (3:30 - 5:30pm)

Sat., Nov 14 (10:00 - Noon)

Mon., Dec 7 (3:30 - 5:30pm)

Wed., Dec 9 (3:00 - 5:00pm)

To register: forms.gle/TrjEJZdnfpj6t9729
