

Easy, Breezy: A Gust of Air

A virtual workshop for early childhood teachers.

Includes 2 CEU hours

Have you ever marveled at the air around you? Can you make a ball levitate? Can you make an egg jump from one container to the next? You'll experiment with the power of air as you discover how airplanes fly and birds soar. You'll also learn techniques for making and testing hot air balloons in the classroom!

Workshop includes a kit of science materials
and ready-to-implement ideas!

Thursday, March 18, 2021, 1–3pm

Held virtually. Zoom link will be sent to registrants the day before.

Registration is requested by March 5 so that kits can be pick up or shipped ahead of time for first 20 registrants. Sharing a login and kit of materials is possible. Please contact Explora Reservations with questions - reservations@explora.us
