

## Seeds and Soil

A virtual workshop for early childhood teachers,  
librarians, and out-of-school time educators.

Includes 2 CEU hours

Learn how to plant seeds of STEM with your students whether virtual or in-person! You'll get dirty with soil and dirt, design your own seed through the Engineering Design Process, and determine your ideal seed bomb. You'll receive ready-to-go activity cards in Spanish and English, as well as resources to build your own connections to local farms and agricultural STEM role models in your community.

**Thursday, November 11, 2021 from 3–5pm**

Held virtually. Zoom link will be sent to registrants the day before.

Registration is requested by November 1 for kits to be picked up or shipped ahead of time for first 20 registrants. Sharing a login and kit of materials is possible. Please contact Explora Reservations with questions - [reservations@explora.us](mailto:reservations@explora.us)
